

## DARWIN & NEWTS

# FOLD UP TREEHOUSE

## INSTRUCTIONS

Colour in the treehouse and on page 2 either the frame straight from the show or design your own on the blank one! Cut the treehouse out and fold along the dotted lines. Also cut out your frame from page 2. Apply some glue to all the tabs and darkened areas on the treehouse. As you fold it together the tabs should line up with the appropriate areas to stick to. Stick them down and your treehouse is almost complete! Stick on your frame (use the dark area on the front and back of the treehouse as a guide). Congratulations! you now have your very own Darwin and Newts treehouse!
